

## JILL HERTZ INTERIOR DESIGN

As a Professional Interior Designer, I have had to work with contractors my entire career. I have known and worked with Harry Day and Day's Construction for 15 years. During those years we have worked on numerous residential and commercial projects together.

Harry is a longtime business owner and offers the security of his experience and stability. When he is on the job he is an extension of my business and my brand. I can rely on him to supervise any worksite with confidence, patience, and ease. He is a consummate professional and a pleasure to work with.

Day's Construction is an important part of my team; Harry brings my visions to life. I trust him to make my clients' dreams become a reality!
